

Acevedo Belt Featured by Harvey AI for Transforming Modern Legal Practice

Acevedo Belt was recently featured by Harvey for its forward-looking integration of legal tech and AI into the practice of law. The customer story highlights how the firm combines experienced senior attorneys with cutting-edge legal technology to deliver sophisticated legal work more efficiently and effectively. The feature explores how Harvey has helped the firm streamline complex transactional workflows, enhance legal analysis, improve responsiveness to clients, and support a more modern and sustainable approach to practicing law, particularly within a boutique firm environment.
