Brian Belt to Speak at Harvey Forum Law Firm & Innovation Day

Acevedo Belt Founding Shareholder Brian Belt will speak at Harvey Forum Law Firm & Innovation Day in New York as part of the session, **"The Mid-Market AI Playbook."**

The roundtable will bring together leaders from mid-market law firms to discuss how firms under 500 lawyers are approaching AI adoption, where they are seeing measurable ROI, and how they are navigating implementation with leaner teams and fewer dedicated innovation resources. The discussion will focus on practical strategies that are delivering results, internal buy-in, and how smaller firms can move more quickly and decisively than larger organizations.
